Filtering and Security Packages

Standard	Plus	Ultimate
Our Standard package includes everything to get you started: Industry leading router, firewall, DfE compliant filter and unlimited support from our highly qualified, UK based technical support teams.	Our Plus filtering & security package includes all the standard package features, plus different levels of group and individual monitoring and reporting on every user in the school. Also includes proactive alerts and suspicious searches.	The Ultimate package includes all the features within both the Standard and Plus packages, together with Fortinet's industry leading Unified Threat Management. This protects your school against viruses and malware and gives granular control of "web apps" like Facebook and Youtube. It also lets staff remotely connect to school resources when off-site.
INCLUDED	+£350pa	+£650pa
